- Preparation subjected to the European Biocides Directive 98/8/EC.

## SUBSTRATES

Cement and by-products, plaster and by products, timber and by-products, glass textile wall covering, cellular concrete, old adhering matt finish paint.

## TECHNICAL DATAS

### Classification V.O.C.

AFNOR NF T 36005 Family I-Class 7a2  
E.U. limit value of this product (Cat. A/a) : 75 g/l  
This product contains max : 50 g/l

### Composition

Vinyl aqueous dispersion. Contains a biocide substance.

### Density

1.4 kg/l

### Non volatile matter

55%

### Flash point

Not flammable

### Aspect

Matt

### Colour

White. Can be dyed with solvent free universal dyestuffs (2% max.) to obtain pastel colours.

### Drying at 20°C

Touch dry : 1 hour – Recoatable : 6 hours (values indicated for a well ventilated room).

### Spreading rate

8 to 11 sqm/l per coat according to substrate nature and relief.

### Gloss at 60°

< 2

### Gloss at 85°

< 2

### Dilution

Ready for use

## USE ADVICES

### Application conditions

**VINYMAT INSECTICIDE** can be applied with a paint brush, a roller or a spay gun on a dry, prepared and clean substrate in accordance with NF P74-201-1 standard (DTU 59.1.). The substrate must be dry with temperature over +8°C.

Thin with clean water if necessary (3 % max.).

On mouldy substrates, it is necessary to eliminate all the moulds with a humid scrubbing (sponge or scrubbing-brush) and then disinfect with **ARTIBIOSE +**.

In case of application on old bases, on wood, plaster and plaster blocks, apply a primer coat with **GLYCEPRIM FONGICIDE**.

Apply two coats of **VINYMAT INSECTICIDE** for a better resistance to moulds. If used as insecticidal finishing only, one coat of **VINYMAT INSECTICIDE** is enough on a matt adhering classic paint.

Do not apply insecticide paint in locals where fishes are bred.

**Important :** To keep its efficacy **VINYMAT INSECTICIDE** must be neither covered nor mixed with any other paint.

### Cleaning

Wash with clean water immediately after use.

## STORAGE

2 years starting from the manufacturing date, in unopened packing of origin, stored in frost-free conditions. Limit date of use and n° of batch: see white label on body of the tin.

## PACKAGING

12 L tins and boxes of 4 x 2.5 L tins.

## HYGIENE AND SAFETY

Use biocides carefully. Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
