TECHNICAL DATAS

Classification V.O.C.

AFNOR NF T 36005 Family I-Class 7a2
E.U. limit value of this product (Cat. A/a) : 30 g/l (2010)
This product contains max : 30 g/l

Composition

Vinyl aqueous dispersion. Contains a biocide substance.

Density

1.4 kg/l

Non volatile matter

55%

Flash point

Not flammable

Aspect

Matt

Colour

White. Can be dyed with solvent free universal dyestuffs (1% max.) to obtain pastel colours.

Drying at 20°C

Touch dry : 1 hour – Recoatable : 6 hours (values indicated for a well ventilated room).

Spreading rate

11 to 14 sqm/l per coat according to substrate nature and relief.

Gloss at 60°

< 2

Gloss at 85°

< 2

USE ADVICES

Substrates preparation

VINYMAT ULTRA INSECTICIDE can be applied with a paint brush or with a roller on a dry, prepared and clean substrate in accordance with NF P74-201-1 standard (DTU 59.1.). The substrate must be dry with temperature over +8°C.

On mouldy substrates before painting it is necessary to eliminate all the moulds with a humid scrubbing (sponge or scrubbing-brush) and then disinfect with **ARTIBIOSE+**.

In case of application on porous bases or wood prime with **GLYCEPRIM FONGE**.

On other substrates apply a first coat with a matt **ARTILIN** paint resistant to moulds like **KREMBIOSE** or **GLYCELO MAT FONGE**.

If only insecticide or anti-dust mites finishing coat are required, prime with **CELOPRIM** or a classical matt adhering paint like **VINYMAT**, **GLYCELO PREMIUM** or **GLYCELO MAT**.

Dilute with clean water (3%) if necessary.

Application conditions

Apply one coat of **VINYMAT ULTRA INSECTICIDE**.

Important : To keep its efficacy **VINYMAT ULTRA INSECTICIDE** must be neither covered nor diluted nor mixed with any other paint.

Cleaning

Wash with clean water immediately after use.

SHELF LIFE

2 years starting from the manufacturing date, in unopened packing of origin, stored in frost-free conditions.

PACKAGING

12 L or 15 L pails and boxes of 4 x 2.5 L tins.

HYGIENE AND SAFETY

Use biocides carefully. Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment. May produce an allergic reaction. *Avoid release to the environment.*
